TRAUMA CARE ASSISTANCE REVOLVING FUND SUMMARY

Senate Bill 290 established the Trauma Care Assistance Revolving Fund (Trauma Fund) in 1999. This bill provided for the reimbursement of uncompensated costs associated with the provision of trauma care by recognized trauma hospitals and ambulance services (emergency medical services, EMS). In 2004, House Bill 1554 added physicians to the providers eligible for reimbursement from the Trauma Fund. Rules governing the Trauma Fund can be found in the Oklahoma Administrative Code, Title 310, Chapter 669

(https://www.ok.gov/health/Protective_Health/Emergency_Systems/Trauma_Division/Trauma_Care_Assistance_Revolving_Fund/index.html).

The Trauma Fund is a continuing fund that is available from year to year to support the public health safety net required to provide appropriate emergency medical care to severely injured patients. Current sources of revenue for the fund include renewal and reinstatement fees for driver licenses; fines for second/subsequent convictions for driving without a license; convictions for driving under the influence; failure to maintain mandatory motor vehicle insurance; violating the Open Container Law; speeding; drug-related convictions; and the Tobacco Tax.

The Trauma Fund receives approximately \$26 million annually from all sources for disbursement. Ninety percent of the funds collected will be distributed among physicians, hospitals, and EMS providers during each future disbursement period; up to 30% of each disbursement is earmarked specifically for physicians. Since 2001, the fund has paid more than \$327 million to trauma care providers – with hospitals receiving 82%, EMS 6%, and physicians 12% of the amount disbursed.

Disbursements have been provided to physicians in the following areas of specialty:

A new payment methodology was put in place in October 2014 with monthly disbursements for each Trauma Fund period (Period 1: October-March and Period 2: April-September). This change only affected hospitals and EMS; physicians continue to receive biannual disbursements. Although payments are scheduled monthly for hospitals and EMS, all providers submit applications twice a year.

The 2018 report reflects nearly \$23 million in disbursements from October 2017 to September 2018 for care provided from January 1, 2016 to December 31, 2016. Hospitals received 79%, EMS 4%, and physicians 17%. This reflects a 1% decrease for hospital reimbursement, a 1% increase for EMS reimbursement, with physician reimbursement remaining the same. The Trauma Fund provided reimbursement to 624 providers for uncompensated and under-compensated major trauma care, as a result of their delivering care within every region of the state (see Figure 2). For eligible claims submitted for trauma care provided during calendar year 2016, both EMS providers (see Table 2) and Hospitals (see Table 3) were reimbursed at 40% of their eligible uncompensated costs, calculated based on Medicare rate. Physicians are reimbursed 100 percent of the Medicare allowable cost. Detailed information regarding each installment disbursed to providers can be found at
